**SUPPLEMENTARY INFORMATION:**

**Executive Order 12866, and 13563**

Executive Orders 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches to maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). Executive Order 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility.

This final rule has been determined to be not-significant for purposes of Executive Order (EO) 12866 and therefore has not been reviewed by the Office of Management and Budget (OMB).

**Executive Order 12988, Civil Justice Reform**

This final rule has been reviewed under Executive Order 12988, Civil Justice Reform. In accordance with this rule: (1) unless otherwise specifically provided, all State and local laws and regulations that conflict with this rule will be preempted; (2) no retroactive effect will be given to this rule unless specifically prescribed in the rule; and (3) administrative proceeding of the National Appeals Division of the Department of Agriculture (7 CFR part 11) must be exhausted before bringing suit in court that challenges action taken under this rule.

#### **Executive Order 12372, Intergovernmental Review**

This final rule is not subject to the requirements of Executive Order 12372, “Intergovernmental Review of Federal Programs,” as implemented under USDA’s regulations at 2 CFR part 415, subpart C.

#### **Executive Order 13132, Federalism**

The policies contained in this rule do not have any substantial direct effect on states, on the relationship between the national government and the states, or on the distribution of power and responsibilities among the various levels of government. Nor does this final rule impose substantial direct compliance costs on state and local governments. Therefore, consultation with states is not required.

#### **Executive Order 13175, Consultation and Coordination with Indian Tribal Governments**

This executive order imposes requirements on the Agency in the development of regulatory policies that have tribal implications or preempt tribal laws. The Agency has determined that the rule does not have a substantial direct effect on one or more Indian tribe(s) or on either the relationship or the distribution of powers and responsibilities between the federal government and Indian tribes. Thus, this final rule is not subject to the requirements of Executive Order 13175. If tribal leaders are interested in consulting with the Agency on this rule, they are encouraged to contact USDA’s Office of Tribal

Relations or the Agency's Native American Coordinator at: AIAN@usda.gov to request such a consultation.

### **Regulatory Flexibility Act**

The Regulatory Flexibility Act (5 U.S.C. 601 et seq.) (RFA) generally requires an agency to prepare a regulatory flexibility analysis of any rule subject to notice and comment rulemaking requirements under the Administrative Procedure Act ("APA") or any other statute. The Administrative Procedures Act exempts from notice and comment requirements rules "relating to agency management or personnel or to public property, loans, grants, benefits, or contracts" (5 U.S.C. 553(a)(2)), so therefore an analysis has not been prepared for this rule.

### **National Environmental Policy Act**

In accordance with the National Environmental Policy Act of 1969, Public Law 91-190, this final rule has been reviewed in accordance with 7 CFR part 1970 ("Environmental Policies and Procedures"). The Agency has determined that (i) this action meets the criteria established in 7 CFR 1970.53(f); (ii) no extraordinary circumstances exist; and (iii) the action is not "connected" to other actions with potentially significant impacts, is not considered a "cumulative action" and is not precluded by 40 CFR 1506.1. Therefore, the Agency has determined that the action does not have a significant effect on the human environment, and therefore neither an Environmental Assessment nor an Environmental Impact Statement is required.

### **Catalog of Federal Domestic Assistance**

The Catalog of Federal Domestic Assistance (CFDA) number assigned to this program is 10.755, Rural Innovation Stronger Economy (RISE) Grant Program. The Catalog is available on the Internet at <https://sam.gov/content/assistance-listings>. The Government Publishing Office (GPO) prints and sells the CFDA to interested buyers. ### **E-Government Act Compliance**

Rural Development is committed to the E-Government Act, which requires government agencies in general to provide the public the option of submitting information or transacting business electronically to the maximum extent possible.

### **Civil Rights Impact Analysis**

Rural Development has reviewed this rule in accordance with USDA Regulation 4300-4, “Civil Rights Impact Analysis,” to identify any major civil rights impacts the rule might have on program participants on the basis of age, race, color, national origin, sex or disability. Based on the review and analysis of the rule and available data, it has been determined that the program purpose, application submission and eligibility criteria, or issuance of this Final Rule is not likely to negatively impact low and moderate-income populations, minority populations, women, Indian tribes or persons with disability, by virtue of their race, color, national origin, sex, age, disability, or marital or familial status.

### **Paperwork Reduction Act**

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35), USDA requested that the Office of Management and Budget (OMB) conduct an emergency review of a new information collection that contains the Information Collection and Recordkeeping requirements contained in this notice by May 28, 2021. An emergency clearance approval for this information collection is due to the following conditions: (1) the time sensitive competitive solicitation application window; (2) the urgency to obligate funds prior to September 30, 2021; and (3) being able to effectively implement the program as quickly as possible to benefit rural communities.

In addition to the emergency clearance, the regular clearance process is hereby being initiated to provide the public with the opportunity to comment under a full

comment period, as the Agency intends to request regular approval from OMB for this information collection. Comments from the public on new, proposed, revised, and continuing collections of information help us assess the impact of our information collection requirements and minimize the public's reporting burden. Comments may be submitted regarding this information collection through the Federal eRulemaking Portal. ## **Background**

Rural Development (RD) is a mission area within the United States Department of Agriculture (USDA) comprised of the Rural Utilities Service (RUS), Rural Housing Service (RHS) and Rural Business-Cooperative Service (RBCS). RD's mission is to increase economic opportunity and improve the quality of life for all rural Americans. RD meets its mission by providing loans, loan guarantees, grants, and technical assistance through more than 40 programs aimed at creating and improving housing, businesses, and infrastructure throughout rural America.

Consistent with the above mission, the Rural Innovation Stronger Economy (RISE) Grant Program is a newly authorized program enacted under the authority of Section 6424 of the Agriculture Improvement Act of 2018 (Public Law 115-34) (2018 Farm Bill) to help struggling communities by funding job accelerators in low-income rural communities. This action is intended to implement the provisions provided in Section 6424 of the 2018 Farm Bill by issuing a final rule. This final rule will describe the program purpose, the eligible uses of program funds, and entities eligible for assistance under the RISE Grant Program in alignment with the Farm Bill requirements. The new regulation will also include competitive grant scoring criteria and cost sharing requirements of the program, as well as administration and servicing of outstanding grants. The RISE Grant Program will meet a recognized need for federal interagency support of jobs accelerator partnerships for the fostering and promotion of private investment in an identified regional economy. The flexible use of funds by RISE grant

recipients allows a region to identify and leverage its community assets to better assist new and existing industry clusters, including the use of broadband service for programs of the jobs accelerator. RISE will allow eligible entities to establish and operate innovation centers for job development through training and programming efforts that will improve the ability of rural communities to create high-wage jobs, accelerate the formation of rural businesses and strengthen regional economies.

#### *Purpose of the Regulatory Action*

The purpose of this regulation is to implement Section 6424 of the 2018 Farm Bill designed to meet a recognized need for federal interagency support of jobs accelerator partnerships for the fostering and promotion of private investment in an identified regional economy. The flexible use of funds by RISE grant recipients allows a region to identify and leverage its community assets to better assist new and existing industry clusters, including the use of broadband service for programs of the jobs accelerator.

#### *Discussion of the Rule*

Many of the definitions used in this regulation are used in or are consistent with other Agency programs; however, the Agency calls attention to the following new definitions at § 4284.1103: high-wage job, industry cluster, jobs accelerator, lead applicant, region, rural and rural area, and rural jobs accelerator partnership. These definitions provide important information regarding project eligibility as well as requirements for the applicant's organizational structure.

RISE grants are made for the benefit of rural jobs accelerator partnerships (partnership). These partnerships are working groups that consist of community and regional stakeholders whose focus is the needs of an identified industry cluster. Implementation and sustainability of the partnership is more likely with a broad coalition of stakeholders; to that end, the partnership must be made up of one or more representatives of the groups listed in § 4284.1112(a). Additionally, all partnerships must

have a lead applicant as described in § 4284.1112(b). The lead applicant is responsible for the partnership, enters into the financial assistance agreement with the Agency, administers the grant proceeds and activities, and takes ownership of any assets purchased with grant funds. Only partnerships formed on or after December 20, 2018, are eligible for awards.

The partnership and proposed project must serve a region as defined in § 4284.1103 and discussed at § 4284.1112(d). The partnership must ensure that the region is clearly defined and is of a size that enables collaboration among members while also containing critical elements of the industry cluster prioritized by the partnership. Eligibility under all other provisions of this part is negated if the lead applicant meets either provision in § 4284.1109(a) or (b). The lead applicant will remain ineligible to receive funds until the disqualifying condition has been remedied.

To ensure that all RISE funds are being used, in a timely manner, to provide the services for which they were awarded, the Agency implements, at § 4284.1110(a), a satisfactory progress requirement. Lead applicants that have unexpended funding from previous RISE grant(s) must expend 50 percent or more of the previous RISE grant funds by the time the Agency makes an eligibility determination or the application will be deemed ineligible for that funding cycle.

Eligible projects for the RISE grant program are those that accelerate the formation of new businesses with high-growth potential, improve the ability of distressed, rural communities to create high-wage jobs, accelerate the formation of new businesses and strengthen regional economies. Projects must be identified at the time of application and fall into one of two categories: construction or purchase of buildings or equipment; or project support. Construction or purchase is limited to buildings that will serve as innovation centers for jobs accelerator. Equipment purchases must be necessary to support the functions of the jobs accelerator. Specific information on construction and

purchase is found at § 4284.1113(a). It is noted again that any buildings or equipment purchased with RISE grant proceeds must be owned and controlled by the lead applicant. Support covers a broad range of activities but includes functions for the support of programs carried out at or in direct partnership with a jobs accelerator or in support of jobs accelerator initiatives. The Agency provides guidance on acceptable activities at § 4284.1113(b). The Agency may, from time to time, revise the list of acceptable activities through a *Federal Register* notice.

As detailed at § 4284.1114, the Federal share of any activity under the RISE grant will be no more than 80 percent of eligible project costs. The non-Federal share is the responsibility of the applicant and may be in the form of third-party equity contributions, including donations and in-kind contributions of fairly valued goods or services. Evidence of the amount and source of the non-Federal funds must be provided at the time of application submittal with documentation that the required non-Federal funds have been received or remain committed prior to execution of the financial assistance agreement by the lead applicant. The match is based on eligible project costs as outlined at § 4284.1114(c). Grants are further restricted at § 4284.1114(a)(1) and (2) to a minimum request of not less than \$500,000 and a maximum request of not more than \$2,000,000. Restrictions are also placed on indirect costs. Costs incurred by the applicant associated with administering the RISE grant are statutorily restricted to ten percent of the RISE grant amount.

As the Agency wishes to encourage projects across a broad geographic area, applicants are limited to one application per funding cycle, unless otherwise notified in a *Federal Register* notice. The contents of a complete application may be found at § 4284.1115(b). All items must be included or addressed for an application to be considered complete and to compete for funding. The items requested allow the Agency

to complete an applicant and project eligibility determination, as well as determine project alignment with Agency priorities.

Based upon comments received during the request for public comments period, the Agency added a review of concept proposal at § 4284.1115(a). Applicants may submit, not less than 60 days prior to the application submittal deadline, the items in § 4284.1115(a)(1) through (4) for Agency review. The Agency will review the submitted items and provide feedback regarding any weaknesses and a letter of encouragement or discouragement. A letter of encouragement does not guarantee eligibility or funding. Similarly, a letter of discouragement does not preclude the applicant from submitting a complete application. If an applicant submits a review request and later submits a complete application, duplicative items do not have to be resubmitted; however, all information must be up-to-date and current.

To ensure that projects begin providing the proposed services as quickly as possible and that all members of the partnership are ready to contribute to the success of the proposed project, the Agency at § 4284.1115(b)(2)(x) requires that all applications include a readiness demonstration. The items identified in § 4284.1115(b)(2)(x)(A) through (E) not only provide the Agency evidence that the partnership is ready and able to begin the project but also allows the partnership to evaluate the ability of their members to provide the services necessary, create a marketing and reporting plan and finalize a timeline.

Each complete and eligible application for the RISE program will be scored based on the priority scoring criteria found at § 4284.1117(a) through (g). Applications will, unless otherwise publicly announced, be reviewed, and scored by Agency personnel. The scoring criteria are designed to prioritize sustainable projects that best meet the program criteria set forth in the 2018 Farm Bill and this regulation. Scored applications will be ranked from highest to lowest score for funding consideration. Due to the variability of

proposals from year to year, no minimum score for funding is provided. Regardless of a proposal's priority score or relative ranking, all funding decisions are subject to the availability of funds. Receipt of funds in one funding cycle does not guarantee priority or funding in future funding cycles.

Information specific to the awarding of a grant is provided at § 4284.1119. As noted previously, the lead applicant is responsible for the administration of the grant and will, if the application is selected for funding, be issued a letter of conditions by the Agency. The letter establishes conditions that the applicant must agree to prior to the obligation of funds. Acceptance of the conditions by the applicant does not constitute commitment or obligation of funds by the Agency. The applicant must not make any binding commitments until a financial assistance agreement has been fully executed and the applicant has been notified by the Agency of grant approval. The grant performance period for all grants award under this part is four years beginning on the date the financial assistance agreement was signed by the Agency. At the end of the four-year period any unspent grant funds are required to be returned to the Agency. If circumstances beyond the grantee's control occur, the Agency may, at its sole discretion, approve a one-time grant performance period extension. Any extension will be for a period not to exceed two years and must be requested by the grantee prior to the expiration of the grant performance period, as specified in the financial assistance agreement. Requests must describe the circumstances that prohibited the grantee from completing the project and show that an active jobs accelerator and related programming is established. Further discussion of times extensions can be found at § 4284.1110(g)(1).

### **Discussion of Public Comments for Final Rule**

On July 22, 2020, the Agency published a request for comments in the *Federal Register* (85 FR 44273) to allow stakeholders a platform and sufficient time to provide formal comments on provisions of the Rural Innovation Stronger Economy (RISE) Grant

Program. Eleven entities provided written comments during the formal comment period. The Agency also conducted listening sessions for interested stakeholders on July 28, and July 30, 2020, regarding implementation of the Final Rule for the RISE program. A listening session was also held on July 21, 2020, to receive comments from Agency staff. The Agency reviewed and considered all comments that were received. The following discusses substantive comments and the Agency's response:

*Comment:* Two commenters indicated that RISE should have a framework for an applicant providing components of the application, similar to the Department of Commerce's Economic Development Administration's (EDA) process for their programs, including a concept proposal to highlight their eligibility and scope of work.

*Response:* The Agency considered this application framework and included the concept paper proposal suggestion in the application process.

*Comment:* Two commenters provided suggestions for quantitative scoring including evaluation of market connections made, new regional programs and networks established. These scoring criteria indicate that there should be not only qualitative but quantitative factors when evaluating RISE applications.

*Response:* The Agency used the comments to develop benchmarks of success in scoring criteria to make awards that will generate the intended program outcomes. The Agency considered this information and therefore included a requirement that project performance reports be provided twice a year, from the grantee, in order to monitor progress on the key metrics found in the scope of work.

*Comment:* A commenter suggested scoring metrics ranging from innovation, scope and monetary impact of the project to private/public partnerships involved in the project was provided. The commenter discussed including scoring consideration for projects in federal Opportunity Zones.

*Response:* The Agency considered various metrics from innovation to scope and

monetary impact of the project as well as partnership analysis and included this in the scoring criteria. The Agency may include federal initiatives as a criterion under the Administrator section of scoring, which may be announced in the *Federal Register* in the Notice of Solicitation of Applications on an annual basis.

*Comment:* A commenter suggested that the program provide more significant scoring and weighting for partnerships that evidence commitments to target low-income workers for workforce development activity. The commenter further recommended that the Agency emphasize high impact metrics including creation and retention of high-wage jobs, private investment leveraging, businesses established or improved, new products or services commercialized, increased regional collaboration, the number and dollar amount of new loans, improvement of income of participating workers, sales of participating businesses, and the amount of training and education activities related to the innovation.

*Response:* The Agency considered these items and many of these items were included in the application content and scoring. The Agency addressed grant monitoring metrics in the servicing section of the regulation. The Agency provided an analysis of the partnership's abilities in the application and scoring content of the regulation.

*Comment:* Three commenters indicated that applicants should fully demonstrate commitment and sustainability of the project in their applications.

*Response:* The Agency agrees with this comment and includes input on technology, scope, commitment, and sustainability of the project and incorporated these items not only in the application but also in the scoring criteria for the RISE program.

*Comment:* One commenter discussed the applicant providing details of organization, governance, operations, and roles of partners in the partnership. One commenter discussed what the application should consist of including a definition of the consortium of entities, roles of each partner, business plan, description of the region in economic terms, activities to be performed by the partnership, how the partnership will collect

metrics of performance on itself and a communication plan outlining how success stories and impacts will be outlined.

*Response:* The Agency considered details of the partnership from organization to governance and included these components in the application requirements and scoring criteria.

*Comment:* One commenter suggested the Agency evaluate proposals by different standards.

*Response:* The Agency does not agree with using different standards for the evaluation of applications and will evaluate all proposals by the same scoring criteria.

*Comment:* Two commenters discussed an assessment of the applicant's link with rural communities to markets, networks, industry clusters and other regional opportunities and assets plus the characteristics for regional readiness and success.

*Response:* The Agency considered these comments to develop benchmarks of readiness and commitment to the identified region in scoring criteria to make awards that will generate the intended program outcomes.

*Comment:* Several commenters suggested including a rating factor of the amount of previous partnership activities and resources that will be leveraged by the RISE grant activities and developing successful benchmarks ranging from quantifying prototypes, technology and jobs to markets criteria.

*Response:* The Agency appreciates the suggested metrics and included many of these in the regulation and scoring criteria.

*Comment:* Two commenters discussed measurement of outcome-based metrics including business, employment and wage growth and job training as well as patent applications in its grant monitoring. Several commenters indicated that grant servicing reports should be no more frequent than semi-annual due to the length of the grant period.

*Response:* The Agency addressed grant monitoring metrics in the servicing section of the

regulation. The Agency agrees and will monitor performance metrics and outcomes of grant funds on a semi-annual basis.

*Comment:* Commenter discussed the statutory requirement of a 20 percent cost match of the RISE Program and requested the Agency not to require the entire portion of the match to be demonstrated at the application stage, but instead to allow applicants to produce the remainder of any cost-share commitment up to a year after award.

*Response:* The Agency is unable to consider an option to delay grant matching requirements due to statutory requirements of the RISE Program. The input of matching funds at grant origination demonstrates the applicant's commitment to the project.

*Comment:* One commenter discussed the Agency extending past the ten percent restriction on indirect costs for awarded entities.

*Response:* The ten percent limitation on indirect costs and administrative expenses is a statutory requirement and cannot be modified as suggested.

*Comment:* One commenter discussed the ability of innovation centers to be virtual in lieu of having a physical building centered in one community.

*Response:* A virtual option is allowable under RISE if a rural region is being served and all other eligible criteria are met. The Agency did clarify that the construction of an innovation center must be in a rural area only.

*Comment:* One commenter suggested allowing grant funding to be spent on multiple activities including training and support of businesses, support research and development activities to develop markets, development of partnerships to deal with supply issues and obtaining resources for workforce development programs.

*Response:* The Agency developed eligible project costs to cover multiple activities including the purchase and construction of an innovation center, costs directly related to the operations of an innovation center, costs directly associated with support programs to be carried out at or in direct partnership with job accelerators as well as other

administrative costs providing the ability to cover training and development.

*Comment:* One commenter suggested that the jobs accelerator be able to serve multiple communities with populations of 50,000 or less.

*Response:* The Agency concurs with the comment regarding ability to serve multiple communities and has a statutory responsibility to ensure this.

*Comment:* One commenter indicated the Agency should ensure a region is not too small.

*Response:* The Agency addressed the definition of a region in the RISE regulation in compliance with the statutory requirements.

The submission date of record for such modified applications will be the date the Agency receives the modified application, and the application will be processed by the Agency as a new application under this subpart. Applications that are modified due only to partial funding being available for the selected award are not subject to this provision.

(e) *Incomplete applications.* Applicants must submit a complete application in compliance with § 4284.1115 in order to be considered for funding. This request must describe the extenuating circumstances that were beyond its control to complete the project for which the grant was awarded, elements of completion that are required and their timeframe, and why an approval is in the government's best interest. The Agency may extend the grant term up to an additional two-year period. Additional extensions will not be granted.

Points shall be awarded at the discretion of the Agency to scoring criteria with a minimum and maximum number of points available. Applicants that demonstrate the experience or ability to deliver the stated criteria will be awarded higher points in that criteria.

(a) *Demonstrated readiness.* The Partnership demonstrated readiness in administering the RISE grant successfully and shows strong documentation indicating the potential for success in establishing a jobs accelerator project which targets an industry cluster and the initiative(s) of the RISE grant program. Points are awarded on a scale of 0 to 10 with a maximum of 10 points being awarded.

**§ 4284.1119 Awarding and Administering RISE Grants.**

The Agency will award and administer RISE grants in accordance with departmental regulations and with the procedures and requirements specified in this part.

(b) *Letter of conditions.* A letter of conditions will be prepared by the Agency, establishing conditions that must be agreed to by the applicant before any obligation of funds can occur. Upon reviewing the conditions and requirements in the letter of conditions, the applicant must complete, sign, and return the Form RD 1942-46, "Letter of Intent to Meet Conditions," and Form RD 1940-1, "Request for Obligation of Funds," to the Agency if it accepts the conditions of the grant; or if certain conditions cannot be met, the applicant may propose alternate conditions in writing to the Agency. The Agency must resolve or concur with any changes proposed by the applicant to the letter of conditions before the application will be further processed.

(c) *Evidence of matching funds.* The applicant is responsible for providing documentation that the required matching funds for the project have been received or remain committed at the date a financial assistance agreement is executed with the Agency.

- (1) Be registered in SAM before submitting its application;

Failure to follow these requirements might result in termination of the grant and adoption of other available remedies.

(f) *Grant approval.* The lead applicant will be sent an executed copy of the executed Form RD 1940-1, "Obligation of Funds," and the financial assistance agreement.

#### **§ 4284.1120 Servicing RISE grants.**

The Agency will service RISE grants in accordance with the requirements specified in departmental regulations, the financial assistance agreement, 7 CFR part 1951, subparts E and O, other than 7 CFR 1951.709(d)(1)(i)(B)(iv), and the requirements in § 4284.1120, except as specified in paragraphs (a) through (d) of this section.

(a) *Inspections.* Grantees must permit periodic inspection of the project records and operations by a representative of the Agency.

(b) *Programmatic changes.* Grantees may make changes to an approved project's costs, scope, contractor, or vendor subject to the provisions specified in paragraphs (b)(1) through (3) of this section. If the changes result in lowering the project's score to below what would have qualified the application for an award, the Agency will not approve the changes.

(1) *Prior Agency approval.* The grantee must obtain prior Agency approval for any change to the scope, contractor, or vendor of the approved project. Changes in project cost will require Agency approval as outlined in paragraph (b)(1)(iii) of this section.

(i) Grantees must submit requests for programmatic changes in writing to the Agency for Agency approval.

(ii) Failure to obtain prior Agency approval of any such change could result in such remedies as suspension, termination, and recovery of grant funds.

(iii) Prior Agency approval is required for all increases in project costs. Prior Agency approval is required for a decrease in project cost only if the decrease would have a negative effect on the long-term viability of the project. A decrease in project cost that does not have a negative impact on long-term viability requires Agency notification prior to disbursement of funds. If project costs decrease, the Agency will reduce the grant amount, if necessary, to maintain a maximum grant amount of no greater than 80 percent of total project activities as required in § 4284.1114(a).

(2) *Changes in project cost or scope.* If there is a significant change in project cost or any change in project scope, then the grantee's funding needs, eligibility, and scoring, as applicable, will be reassessed. Any decreases in Agency funds will be based on revised project costs and other factors, including Agency regulations used at the time of grant approval.

(3) *Change of contractor or vendor.* When seeking a change, the grantee must submit a written request to the Agency for approval. The proposed new contractor or vendor must have qualifications and experience acceptable to the Agency. The written request must contain sufficient information to demonstrate to the Agency's satisfaction that such change maintains project integrity. If the Agency determines that project integrity continues to be demonstrated, the grantee will be allowed to make the change.

If the Agency determines that project integrity is no longer demonstrated, the change will not be approved and the grantee has the following options:

(i) Continue with the original contractor or vendor;

(ii) Find another contractor or vendor that has qualifications and experience acceptable to the Agency to complete the project; or

(iii) Terminate the grant by providing a written request to the Agency. No additional funding will be available from the Agency if costs for the project have increased. Any Agency decision will be provided in writing to the lead applicant.

(c) *Transfer of Applicant or Ownership.* Any change to the jobs accelerator partnership prior to the obligation of funds must be approved by the Agency and will only be considered if the partnership entities are eligible in accordance with § 4284.1112. After the project is obligated and operational, the applicant grantee may request, in writing, a transfer of the financial assistance agreement to another entity. Subject to Agency approval provided in writing, the financial assistance agreement may be transferred to another entity provided:

(1) The entity is determined by the Agency to be an eligible lead applicant entity under this subpart; and

(2) The scope of the project for which the Agency funds will be used remain unchanged.

(d) *Disposition of acquired property.* Grantees must abide by the disposition of acquired asset requirements as outlined in 2 CFR part 200 and departmental regulations.

Those records must contain information pertaining to grant awards and authorizations, obligations, unobligated balances, assets, liabilities, outlays, and income; and

(iii) Effective control over and accountability for all funds. The grantee must adequately safeguard all such assets and must ensure that funds are used solely for authorized purposes.

(2) *Records.* The grantee will retain financial records, supporting documents, statistical records, and all other records pertinent to the grant for a period of at least three (3) years after completion of the grant period, except that the records must be retained beyond the 3-year period if audit findings have not been resolved or if directed by the United States. The Agency and the Comptroller General of the United States, or any of their duly authorized representatives, must have access to any books, documents, papers, and records of the grantee that are pertinent to the specific grant for the purpose of making audit, examination, excerpts, and transcripts.

(f) *Audit requirements.* If applicable, grantees must provide an annual audit in accordance with 2 CFR part 200, subpart F. The Agency may exercise its right to do a program audit after the end of the project to ensure that all funding supported eligible project costs.

(g) *Grant disbursement.* The Agency will determine, based on the applicable departmental regulations, whether disbursement of a grant will be by advance or reimbursement. Any funds disbursed in advance of the expense shall be used within three months and the financial need substantiated in writing by the grantee. Form SF-270 or Form SF-271 must be completed by the grantee and submitted to the Agency no more

often than monthly to request either an advance or reimbursement of funds.

(h) *Reporting Requirements.* Financial and project performance reports must be provided by grantees and contain the information specified in paragraphs (h) (1) and (2) of this section.
